Current Type:

Ac

Major Components:

Chassis, trailer, 2 wheel ord model m-536, , compressor, air electric operated, , extractor assembly, washer, , heater, water, , pump, water, single stage, , tumbler, drying

Component Quantity:

6

Generator Rated Capacity In Kilowatts:

10.0

Major Component Capacity Rating:

3-1/2 ton capacity, , 208v, 60 cycle, 3 phase rated capacity, , 60 lb dry wt capacity per load, , 18 gal rated capacity, , 18 to 20 gal per min rated capacity, , 30 lb capacity per load

Gasoline Engine Driven Generator Set:

Included

Generator Voltage Rating:

120.0 and 208.0

Generator Phase:

Single/three

Generator Frequency Rating:

60.0

Voltage In Volts:

120.0 and 208.0

Phase:

Single/three

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T155-a
