End Application:

F100-pw-100/200/220/229 aircraft engine

Nominaldiameter:

2.875 inches

Special Features:

Steel and aluminum; company item name-calibration weight

Functional Description:

Weight, calibration gearbox drivebevel gearshaft, balancing

Reference Data And Literature:

Serd no. 0252

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
