Cross Sectional Shape:

Cup

Cross-sectional Height:

Between 0.209 inches and 0.229 inches

Center Hole Diameter:

Between 1.803 inches and 1.823 inches

Peripheral Diameter:

Between 2.113 inches and 2.127 inches

Angle:

Between 43.0 degrees and 47.0 degrees

Material:

Aluminum alloy 1100

Material Specification:

Qq-a-250/1 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
