Overall Length:

11.000 inches

Overall Height:

10.000 inches

Ac Voltage Rating:

115.0 volts

Frequency Rating:

60.0 hertz

Calibration Type:

Deg fahrenheit

Instrument Calibration Range:

100 to 600 degrees f.

Calibration Accuracy Rating:

+/- 2 degrees f.

Special Features:

115 vac, 60 hz; internal cooling fan; adapter chucks supplied to test various instruments; response time 20 min.From start up; chuck sizes 1/16 to 1 inch by 5 inch in length

Material:

Aluminum alloy

Shape:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T263-b
