**Body Outside Diameter:**

1.750 inches

**End Application:**

A/c and refrigeration

**Compressed Length:**

24.660 inches

**Extended Length:**

31.660 inches

**Features Provided:**

Bleeder valves

**Integral Valve Operation Method:**

Hydraulic

**Design Characteristics:**

Double acting single cylinder

**First Piston Rod End Style:**

Bearing type largest working end

**Special Features:**

Shaft diameter is 0.630 in (nom)

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A34200
