Product Name:

Deployable oxygen generator systems device code 12873

Special Features:

Deployable oxygen generator systems medium; point of use oxygen generation system; delivers high pressure oxygen to fill most cylinder; oxygen purity: 93 +/- 3% oxygen by volume; oxygen flow (oxy 93%): 120 l/min; output pressure: low pressure port adjustable from 50 to 100 psig, high pressure port 2250 psig; weight: 2250 to 4000 lbs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
