Tempurature Rating:

2400.0 degrees fahrenheit

Basic Ingredient:

Molybdenum disulfide

Usage Design:

Solid film lubricant

Special Features:

Dark gray; liquid; temperature resistant to 750 degrees f as dry film lubricant, 2400 degrees f as anti-seize

Supplementary Features:

16 ounce aerosol can (12 oz net weight)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535n0
