Overall Length:

8.500 inches

Overall Height:

1.380 inches

Overall Width:

4.780 inches

Component Type And Quantity:

3 capacitor and 2 coil and 1 plug and 53 resistor and 2 retainer and 5 semiconductor and 2 board and 1 transformer and 14 transistor

Special Features:

Mounting method: thumbscrews and brackets; mounting configuration: 2 thumbscrews 5.500 in. Lg. On 6.625 in. Centers; fsc application data: underwater sound

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
