Overall Diameter:

43.300 inches

Illumination Directing Device Type:

Diffuser and external reflector

Voltage Rating In Volts:

Between 110.0 ac and 130.0 ac

Mounting Method:

Tripod

Lamp Protection Device:

Closed end guard

Special Features:

Can also be mounted on a hitch or pole; difuser/relfector inflates within 45 seconds; two 100 watt halogen lamps with a protection grid; lamps are cooled by a fan; lights a of 15000 square feet; glare free over 360 degree area

Shape:

Oval

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A06300
