Overall Length:

3.375 inches

Spring Loaded Feature:

Included

Design Designation:

Castroviejo

Scale Smallest Increment:

1.000 millimeters

Graduation Interval:

0, 5, 10, 15, and 20 mm graduation markings

Point Type:

Sharp

Measurement Range:

+0.000/+20.000 millimeters

Scale Marking Location:

Both sides

Product Name:

Caliper eye castroviejo 3.375"lg measures 0-20mm sharp point

Special Features:

For measuring orbital distances

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T146-f
