End Application:

Metabolic chemistry panel for nsn 6630-01-415-1593, piccolo chemistry analyzer

Product Name:

TEST-DI-SCB-LOOD

Special Features:

Test disc, blood analyzer, 10s: six compartments containing beads for these tests: alanine aminotransferase (alt), aspartate aminotrasferas (ast), gamma glutamyl transferase (gst), blood urea nitrogen (bun) , creatine, and glucose; reagent discs must be refrigerated at 2 degrees to 8 degrees centigrade; shelf life of 12 months

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
