End Application:

Ruggedized advanced pathogen identification device, r.A.P.I.D.

Usage Design:

Extract dna from any environmental source

Test Capability Quantity:

50

Product Name:

Rapid dna purification kit

Component Breakdown Within Each Test Kit:

1 20ml buffer; 2 30ml buffer; 3 25ml buffer; 50 bead tubes with lysis buffer; 50 sping filters; 200 receiver tubes; 50 swabs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
