End Application:
Ground support equipment
Design Type:
Closed
Heating Method:
Gas
Test Unit Quantity:
1
Special Features:
Determines flash points in closed cup of liquidd with a viscosity below 5, 5 mm2/s at 40degc, or below 9, 5 mm2/s at 25deg c, and flash
point below 93deg c; includes cables, gas tubing, gas flame ignitor, black insulating tube, reinforced plastic hose, ring clamp, fitted lid w/o
probe, waste cup, tag test cup, ring clamp for gas tubing, cd documentation, test certificat
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
T398-b
