Usage Design:

Field

Specific Usage Design:

Field identification of pathogens

Product Name:

Ruggedized advanced pathogen identification device r.A.P.I.D.

Special Features:

Includes laptop computer 5212, start-up-kit 5214, bubble centrifuge and adapters 5216, camouflage backpack 5208, basic use tools kit 1909339, composite reaction cuvettes, cords, cables, users guides; up to 32 prepared test samples may be amplified and analyzed in less that 30 minutes; identifies: anthrax; tularensis; y-pestis; brucellosis; e-coli; salmonella; campylobacter; botulism

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T394-a
