Overall Length:

7.100 inches

Overall Width:

2.800 inches

Overall Thickness:

1.300 inches

Filtration Feature:

Filtered

Sensitivity Range:

+0.0 to 50000.0 lux

Product Name:

Light meter

Special Features:

3.5 digit lcd display; measurement ranges: 0 to 50, 000 lux, 0 to 5000 footcandles; lighting types: sodium, daylight/tungsten, fluorescent, and mercury; sample rate: approx. 0.4 sec per reading; data output: rs-232 pc serial interface; operating temperature: 0 to 50 degrees c (32 to 122 degrees f); power supply: 9 v battery; weight: approx. 0.71 lb; precision photo doide and color correction filter; cosine and color corrected measurements; atuo power off after approx. 10 minutes

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-c
