Tempurature Rating:

400.0 degrees fahrenheit

Basic Ingredient:

Molybdenum disulfide and silicone

Usage Design:

Dry film lubricant for use on bearing surfaces such as brake drums and other non-critical applications

Special Features:

Grease form; dark gray color; service temperature range of minus 50 degrees f to plus 400 degrees f

Supplementary Features:

Twelve 1 pound cans

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535n0
