**Tempurature Rating:**

750.0 degrees fahrenheit

**Basic Ingredient:**

Molybdenum disulfide

**Quantity Within Each Unit Package:**

8.000 ounces

**Usage Design:**

For lubricating and reducing friction on threaded fasteners, press fits, slip fits and gears

**Special Features:**

Black; paste

**Supplementary Features:**

8 ounce can with brush top

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A535n0
