End Application:

Sh-60b helicopter applications

Physical Form:

Paste

Specific Usage Design:

Bonding ceramics and metals such as heat sinks to aluminum, or any application requiring high thermal conductivity and low thermal expansion

Features Provided:

Separate catalyst

Criticality Code Justification:

Agav

Color:

Black

Material:

Plastic epoxy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
