Width:

1.375 inches

Overall Length:

1.938 inches

Overall Height:

0.844 inches

End Application:

Sight apertures

Bore Inside Diameter:

Between 0.249 inches and 0.251 inches

Special Features:

Matl-alum. Alloy qq-a-250/6, 5083 temper h321 or qq-a-200/4, 5083 temper h111; bolt hole: qty-3, shape-round, size-1 hole 0.172/0.204 in. Dia, 2 holes 0.216/0.224 in. Dia; hole size 0.250 in.; distance from bore ctrline to base bottom, 0.594 in.; hole location, horizontal ctrline of shaft bore off center; attachment type for which drilled pin; c to c distance between bolt holes, irregular

Material:

Aluminum alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A524a0
