End Application:

MACH-IN-EGU-N.50

Product Name:

Spring, helical, compression

Special Features:

Style - cylindrical; inside diameter 1, 187; spring free length 5.750 to 6.000; solid length 1.563; solid outside diameter 1.438 to 1.458; end style - square and ground both end; spring direction - rh; coil q type 12; bore diameter 1.479; spring deflection rate 15.600 pounds per inch.

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
