End Application:

Pneumatic drive 1005011585128, gpu-5a

General Description:

4 dimensions 1.990 in. Maximum by 1.380 in. Maximum diameter by 1.500 in., operating temp minus 65 degrees f to plus 400 degrees f, flow media-air, proof pressure 450 psig, 1 inlet port, 1 control port, 1 drain port, dielectric strength 1000 vac, input current 125 ma

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
