End Application:

Aircraft ac-13; 25mm tgms/ash

General Description:

Material e4340 steel; per mil-s-5000; alternate material 4140 steel per mil-s-5626; heat treat to rc 34-38 per mil-h-6875 150 to 170 ksi tensile ref; number of teeth 24; o.D. 2.600 in; spline pitch 24/48; pressure angle 30 deg; base diameter 0.8660 in; maximum measurement between pins 0.9008 in.; pin diameter 0.720 in.Final protective finish; solid film lub except as noted/phosphate only

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
