Overall Length:

3.995 inches

Overall Width:

0.250 inches

End Application:

2320-01-123-1610

Product Name:

Plate, retaining

Special Features:

Part of equilibration assembly (p/n 12374302 nsn 1005-01-466-7532)

Material:

Stainless steel

Surface Treatment:

Passivate

General Description:

Material hardened to 56 rockwell c; magnetic particle inspected; plat with 2.003 in material removed from center; prevents spring ends from contacting aluminum housing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
