Overall Length:

7.0 inches

Overall Diameter:

1.5 inches

Product Name:

Suppressor cover

Special Features:

Designed to fit suppressors that are 1.5 inches in diameter which covers most .223, .300, .308, 5.56, and 7.62 suppressors. Sleeves can interface with each other to increase the length of coverage; sleeves can also be cut to provide a custom fit. Sleeve will resist the extreme heat generated from suppressors to prevent accidental burns to operator and gear while helping to reduce mirage and ir signature. Sleeves will not melt.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A55000
