Overall Length:

7.0 inches

Overall Diameter:

2.25 inches

Model Number:

M7000

Weapon Model Number:

M7000

Product Name:

Suppressor sleeve

Special Features:

Designed to fit suppressors 1.5 inches in diameter. Once installed on a suppressor that is 1.5 inches in diameter, the total outside diameter with the sleeve installed will be approximately 2.25 inches. The sleeves are 7.0 inches long and weigh approximately 7 ounces. The sleeve segments can interface together to increase the length of coverage and they can be cut to length for a custom fit. The sleeves will resist the extreme heat.
