Fabrication Method:

Compressed

Strengthening Feature:

Interwoven wire

Friction Lining Material:

Asbestos composition

Application Type:

Dry

Segment Quantity:

1

Features Provided:

Friction lining

Surface Condition And Location:

One side ground

Actuation Method And Location:

Hydraulic cylinder internal

Fsc Application Data:

Mount, gun 40mm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A230a0
