General Description:

Material: plastic, class 2, mil-p-46129; o/a length 12.000 in.; o/a width 9.310 in.; o/a thk 1.190 in.; 4 holes 0.406 diameter thru; 1st row of holes located along width 0.500 in. From widths edge and 1.190 in. From length edge; center to center distance between holes along width 6.031 in.; 2nd row of holes located opposite end, 1.500 in. From widths edge and 1.190 in. From lengths edge; center to center distance between holes along length 10.000 in.; o/a width of 9.310 in. Is angled to 8.750 in.; opposite from angled edge includes cutaway corner, 0.500 in. Lg x 0.250 in. High; radius of 2.400 in. Runs along total length, and located 5.000 in. From widths edge

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
