**Overall Length:**

66.000 inches

**Major Components:**

Lockwire holes; coaxial eatures; screw threads

**End Application:**

Ordalt 16716005, mk 40 mod 0, housingbreech mechanism

**Criticality Code Justification:**

Feat and spl

**Product Name:**

Bolt, stop block

**Special Features:**

Cofc=major (m103) magnetic particle inspection; dimensional limits apply after plating

**Material:**

Steel

**Material:**

Steel

**Surface Treatment:**

Nickel

**Special Test Features:**

Rockwell c 54-58

**Surface Treatment:**

Nickel plated

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T102-d
