End Application:

2350-01-153-4793

Criticality Code Justification:

Text

Product Name:

Housing, equilibrator

Special Markings:

Per mil-std-130

Material:

Steel

Special Test Features:

Casting: radiographic iaw mil-std-453 2-2t sensitivity, min quality iaw mil-c-6021 grade c. Magnetic partical iaw mil-i-6868, wet continuous.

General Description:

Tube: steel carbon smls mt1010 through mtx1020, 1018 or 1025, cd, specification astm a519, 3.500 od x .188 wall. Or awcr awhr, flash controlled to .005 max, astm a513. Plate: pn 12294509-2 steel carbon 1010 through 1025 specification astm a108 or astm a576 or specification qq-s-741. Finish: paragraph 3.1 interior paint system dwg 12350824.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
