Overall Length:

2.650 inches

General Description:

Operating pressure 0-4500 psig, proof pressure 9000 psid, burst pressure 18000 psig; operating temp -65.0 degrees f to +160.0 degrees f; internal leakage 0; rupture disk pressure 5500 psig +/- 5 percent; external leakage 0; pressure drop 50 psi max; flow 600 scfm fluid air conditions 500 psig inlet; mount limitations none; suitable for air and nitrogen at an inlet pressure of 500 psig fuse will close at 500-600 scfm and will reopen at 20-30 psi

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
