Diameter:

12.000 inches

Length:

15.500 inches

End Application:

Navy weappons code jx, avenger class mcm

Design Type:

Single

Err Default:

Err default

Major Component And Quantity:

Float shape 1; float mount weldment 1; sheave 2; guide tube 1; pull ring plunger 1

Special Features:

Positioning float mk30 mod 0

Material:

Aluminum alloy and plastic

Material:

Aluminum alloy and plastic

Quantity:

1

Shape:

Elongated teardrop

Weight:

9.0 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T338-m
