**Overall Diameter:**

12.740 inches

**End Application:**

Control surface

**Criticality Code Justification:**

Feat

**Product Name:**

Rotor, surface control

**Special Features:**

Military critical, export control; stainless steel thread inserts

**Material:**

Aluminum alloy

**Surface Treatment:**

Anodize

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
