General Description:

Piston shall operate freely when actuated with hydraulic fluid mil-h- 5606 at a temp. Of 80 degree f.+/-10 degree f. Using a 10 micron 25abs filter; operating pressure=300psi; proof pressure=2250psi; screw 2; washer 2; pins w/roller 1; pins w/piston 1; pin-spring 1; packing, w/piston 1; packing w/housing1; spring, helical compression 1; spring douggle torsion 1; roller 1; plunger 1; pin stowlock turre (elev) 1; plate, retaining, piston 1; piston 1; housing 1; cam assembly, stowlock 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
