End Application:

B-1b acft

Operation Method:

Electrical

Control Type:

Pneumatic

Load Suspension Point Quantity:

2

Distance Between Load Suspension Points:

14.000 inches

Ejector Type:

Electrical

Suspension Type:

Hook

Product Name:

Kit, installation, 14 in ejector rack-cbu modification

Special Features:

Mod from p/n I6314201-061; for module to carry 10 bombs with weight of more than 500 lbs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T338-a
