General Description:

Printed wiring board matl mil-p-13949, type fl-gf062c1/1a2a, frame assembly matl aluminum alloy, astmb26 alldy sc 64 d or qq-a-601 alloy 319 or alloy 356, 6.240 in. Min and 6.260 in. Maximum o/a lg, 3.740 in. Min and 3.760 in. Maximum o/a w, 1.162 in. Maximum h, c/o capacitor 2, cable assembly with connector 1, frame assembly 1, printed wiring board 1, resistor 28, transistor 13, turret terminal 3, components attached to both sides of wiring board which is which is bolted to aluminum frame, cable assembly attached to wiring board and extends 6.500 in. Porm 0.250 in. From end of board to end of connector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
