Overall Length:

15.000 inches

Overall Height:

2.000 inches

Overall Width:

7.625 inches

Component Type And Quantity:

28 capacitor and 1 rack and 59 resistor and 1 transformer

Special Features:

Major components: connector receptacle 8; electron tube 10; shield, electron tube 10; terminals board 1; vibrator2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
