End Application:

An/avq-26, target designator set-electro-optical optical assembly

General Description:

Shott glass bk7, plano-convex shape, 0.390 in. Dia, 0.147 in. W, single layer antireflection coating magnesium fluoride surfaces 1 and 2, peak transmittance at 0.900 microns porm 0.100 microns

Fsc Application Data:

Fire control optical assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
