Overall Length:

96.000 inches

Overall Height:

37.000 inches

Overall Width:

15.500 inches

Specific Equipment Accommodated:

Elevation adjustment equipment

End Application:

An/tpn-31 air traffic navigation, integration, and coordination systems (atnavics)

Lining Material:

Polyamide nylon

Fungus Resistant Feature:

Not included

Padding Material:

Rubber foam

Moisture Resistance Feature:

Not included

Material:

Canvas and rubber foam and polyamide nylon

Material:

Cotton and rubber foam and plastic polyamide

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T358-k
