Special Features:

The su-230b/pvs is an upgrade to the currently fielded su-230a/pvs. It is a dual field of view sight that offers increased magnification over the su-230a/pvs. At 1.5x magnification, it allows the user to have increased situational awareness and to locate targets. The user can switch to 6x magnification for long range precision fire. It has a ballistic reticle for use with 7.62mm nato ammunition. Housing color is brown. Designed for use with the mk17 and other 7.62mm nato weapons.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
