Overall Length:

2.826 inches

Overall Width:

1.550 inches

End Application:

Sensor assembly, an/agm-130 guided missile

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Voltage In Volts And Current Type:

5.0 dc

Product Name:

Unit, infrared focal plane array/dewar

General Description:

Item is a staring mid-wave infrared (ir) focal plane array (fpa) hybrid, packaged in a vacuum dewar. The unit is designed to accommodate a cryoengine or cryostat cooling device

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
