Overall Length:

17.630 inches

Overall Height:

7.660 inches

Overall Width:

6.300 inches

End Application:

F-16c/d block 50 aircraft

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Upgraded programmable display generator

Functional Description:

Generates characters for the multi-function display units; item is classified; same as p/n 8515143-921 which is not classified

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
