**Overall Length:**

2.750 inches

**Overall Height:**

0.561 inches

**Overall Width:**

1.000 inches

**End Application:**

Transmitter elevation

**Component Type And Quantity:**

1 eyelet and 1 resistor

**Special Features:**

Major components: resistor board 1; resistor bracket 2; mounting method & configuration: unthreaded holes, two 0.120 inch diameter mounting holes on 2.250 inch mounting centers

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A5110
