Overall Length:

2.750 inches

Overall Height:

0.561 inches

Overall Width:

1.000 inches

End Application:

Transmitter elevation

Component Type And Quantity:

1 eyelet and 1 resistor

Special Features:

Major components: resistor board 1; resistor bracket 2; mounting method & configuration: unthreaded holes, two 0.120 inch diameter mounting holes on 2.250 inch mounting centers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A5110
