End Application:

An/asx-1

General Description:

Identification plate 1, switch 6, variable resistor 2, housing 1, panel 1, cover 2, circuit card 1, connector 3, terminal 1; o/a dim. 3.000 in. L, 5.750 in. W, 4.500 in. H; weight 3.000 lbs; provides operational control of target identification system, electro-optical an/asx-1 and certain functions of associated fire control radar

Fsc Application Data:

Aircraft gunnery fire control component

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
