End Application:

An/aaq-9, detecting set, inirared

General Description:

Item consist of short shaft p/n335607-1, lens carriage shaft p/n335606-1, drive electronics p/n330925-1, prism support bar p/n343676-1, printed circuit board retainer p/n534775-9 and 534775-3, 2ea switch actuator adapter p/n507293-1, 2ea switch p/nms24547-2, limit switch no 1 mount p/n335666-1, limit switch mount no 2 p/n335667-1, drive link p/n335662-1, drive arm p/n335658-1, limit switch cam p/n335664-1, gear shaft assembly no 1 p/n335560-1, gearshaft assembly no 2 p/n335678-1, gearshaft assembly no 3 p/n335664-1, motor subassembly p/n335600-1, prism assembly p/n335622-1, reticle assembly p/n335542-1, lens carriage assembly p/n335557-1 and housing and lens assembly p/n335541-1

Fsc Application Data:

Aircraft gunnery fire control components

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
