End Application:

An/aaq-9 infrared detecting set

General Description:

Consist of 8ea preamp p/n2078905-1, bias regulator p/n2078911-1, 8ea preamp p/n2078908-1, aux control p/n2078902-2, auto contrast enhance p/n330883-1, scan drive p/n2078914-1, led capacitor assembly p/n881975-1, heatsink p/n335539-1, pwb housing p/n881946-2, postamp chassis assembly p/n330888-1, preamp chassis assembly p/n881826-1, 2: 1 zoom assembly p/n335540-1, tv camera p/n2000850-2, scanner optics assembly p/n335537-1, sensor cable assembly p/n335615-1, derotation center p/n323894-1

Fsc Application Data:

Aircraft gunnery fire control components

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
