End Application:

An/avq-26

General Description:

Matt corrosion resistant steel type 440-c per qq-s-763; number of teeth 16, diametral pitch 16, pressure angle 20 degrees, pitch diameter 1.000 in., addendum 0.050 in., tooth thickness 0.098 in., root diameter 0.875 in., pin diameter 0.108 in., measurement over pins 1.147 in., tooth form stub

Fsc Application Data:

Aircraft gunnery fire control component

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
