End Application:

Rc-4c/f-4e/f-111f

General Description:

Material: viscoelastic; provides damping between 200 and 400 hz; temperature: operating 0 degree celsius to plus 55 degree celsius, non-operating minus 62 degree celsius to plus 85 degree celsius; consists of 1 end plate, 1 stack plate, and rigidamp type 1 ar

Fsc Application Data:

Aircraft gunnery fire control component

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
