End Application:

F-16 air combat fighter

Display Type:

Cathode ray tube

Unit Design:

Rack mounted

Interface Type:

1553

Special Features:

C/o chassis wired assembly 1, control assembly panel 1, tube unit assembly 2, p.C. Panel 3, auto brilliance sensor assembly 1, upper cover subassy 1, lower cover subassy, power supply unit 1, optical module 1, o.M. Cableharness and associated hardware 1, nha p/n 16f0010-1, tail no. 0053 9999; to 5n29-11-4

Unpackaged Unit Weight:

35.000 pounds

Precious Material And Location:

Terminals/contacts gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A506z0
