End Application:

F-111/f-4e aircraft

General Description:

Material is ultraviolet filter glass gg-395; length 3.517-3.520 in.; width 0.515-0.520 in.; thickness 0.080 in.; all edges chamfered 0.007 porm 0.003 in. X 45 degrees; parallelism of first and second surfaces within 5 arc

Fsc Application Data:

Used on range finder-target designator, laser 1270010805350

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
